

# ADVENTURE PARK MANAGEMENT FOR SUNNY'S WORLD PVT LTD

## Summary:

Sunny's World is a wonderful place spread over 100 acres near Pune. In which The Tiger's Eye Adventure Park is situated. It could be the Asia's Biggest Adventure Park till now. It consists of various amazing & thrilling sports.

## Sunny's World Dilemma:

It's been a long time problem for Sunny's World to manage the crowd. Also the Adventure park data wasn't proper & satisfactory to understand and evaluate. They were not able to find out the exact head count inside the premises. All the entries to the adventure park were taken manually. So it was a big headache for them to centralize the whole data & monitor everything.

## SOLUTION BY DACCESS

- To resolve these problems, DAccess outlined the above issues and came up with a unique yet cost-effective solution.
- A centralized data system is offered by DAccess to monitor & operate the entire Adventure park activities.
- To control the walk flow and to allow particular user through it a Tripod Turnstile solution is being offered.
- Tripod's network & Adventure Park Management Software is completely designed by DAccess. Tripod will be operated using the RFID wrist band. User will show the wrist band on tripod and for validate user tripod will get open.
- The communication between all tripods & software makes it easier to collect all the data also it ensure the money collection process.

## BENEFITS
